System at a Glance

Innovation through integration.

When technology is designed to work together, it works better.
No other system is designed and engineered by one company.

- 1 SunPower® Solar Cells
Robust back-contact design for unmatched reliability¹
- 2 SunPower® Panels
World-record efficiency² for maximum energy production
- 3 Built-in Microinverters
Power conversion and organization technology behind each panel
- 4 InvisiMount® Hardware
Recessed hardware designed to showcase SunPower panels
- 5 EnergyLink™ Hardware
Engineered for always-on connectivity
- 6 EnergyLink™ Software
Real-time insights for intuitive home energy management

1 #1 rank in "Fraunhofer PV Durability Initiative for Solar Modules: Part 2". Photovoltaics International, 2014.
Campeau, Z. et al. "SunPower Module Degradation Rate," SunPower white paper, 2013.
See www.sunpowercorp.com/facts for details.

2 Highest of over 3,200 silicon solar panels, Photon Module Survey, Feb 2014.
