SOLAR POOL HEATING

Double Your Swim Season!

Make Every Day a Summer Day

Don't settle for "summer only"

SunStar's solar pool heating system provides you more enjoyment in your pool, long after the summer has gone. By capturing the immense heating power of our greatest natural energy resource, the sun, SunStar's leading-edge solar panel design lets you swim comfortably even during the cooler months.

Lasting Performance

Thanks to the reliability, efficiency, and durability of our state-of-the-art system, you can entertain, exercise, and create great memories...worry free.

Make your summers last longer with a SunStar solar pool heating system.

Complete Quality

Maximized Efficiency

- Unique Flow System – Patented design prevents clogging or pressure build up.
- Freeze Resistant – Water escapes completely, preventing freezing and cracked tubes.
- Roof Protection – Panels “float” above roof, allowing it to breath and stay clean and dry.

Attractive and Efficient

- Roof Friendly – Innovative panel mounting system minimizes roof connections.
- Attractive Style – Multiple panel sizes blend nicely with your home.
- Green Living – SunStar utilizes the ultimate environmentally friendly, cost-free, renewable energy source, the sun.

Rugged Construction

- Cutting-Edge Design – Unique, patented, individual tube design eliminates wear from natural expansion and contraction.
- Maintenance Free – “One piece” panel design and superior mounting system eliminates the need for rubber hoses and metal clamps.
- Storm proof – Violent storms are no match for SunStar’s durable panels and mounting method.
- Quality Guaranteed – The best warranty in the business, afforded by over 35 years of experience and over 13 million sq. ft. of SunStar collectors installed.

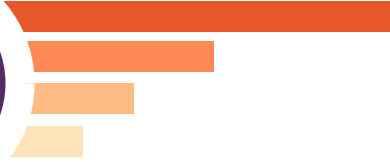

THE SUNSTAR ADVANTAGE

SunStar's solar pool heating system is more dependable, durable and economical than heat pumps and gas heaters.
